

The Azalea One

Sky View Meadows

The Azalea One

The classic shingle and stone cottage entails a large covered porch upon entrance. Once inside, you will find a formal dining room that opens into the spacious kitchen and family room. A large guest suite resides at the front of the home with its own personal bath. To the rear is the master suite that opens to a master bath with large walk-in closet. From the rear entrance, you will find a back stair leading to the upper level with two large bedrooms that share a bath. A children's den is nestled near the front of the home and allows a common gathering place for games and good times.
